I want to add a + sign between each of the elements of a list: (1 + 2 + 3 + 4) (4 + 5 + 6 + 7) My issue is that I can't seem to add + between a string element and a number element and want to understand how I can do that? A: You can't do this in a clean way using common functions in the standard library. If you want to build the string yourself, I'd use a list comprehension, like this

## **ENDER LILIES: Quietus Of The Knights Original Soundtrack Features Key:**

- A rich and fittingly detailed and lush orchestral score by Fernando Velarde. In general, it's a fairly percussive, action-focused orchestral score. In its grandest moments it reminds me a lot of the old "Spielberg" soundtracks of the '90s.
- Contains a short track, titled "Author's Grove", exclusive to this release. This is a shorter piece designed to serve as a platform for the main soundtrack. It serves as a good entry point for a new player.
- Also includes a second, 11-minute alternate version of "Author's Grove", which is lacking as much of the character drama content

found in the full soundtrack. This option should be playable from start to finish in a single, full-length play.

- And finally, this edition comes complete with an original concept poster of the setting.

## **ENDER LILIES: Quietus Of The Knights Original Soundtrack**

Mili's vision of Quietus of the Knights has been artfully realized, creating a sprawling work that perfectly reflects the world envisioned by the author, and his painstaking work to fully integrate the original script with Mili's track. Much of the credit can be given to Mili, whose musical composition has not only become a key element to the game's key scenes, but adds life and depth to the game as a whole. The silent part of the game will be full of subtle sounds of people talking, breaking down and preparing, and Mili's compositions fit the mood perfectly. A pure rock theme, his music has a unique and rich sound, which also perfectly reflects the subtle plot elements and the coldly-calculated nature of the new civilization which will consume the Earth in the game's climax. Mili's compositions include both the work done for the game's theme (for example, on the lake scene), as well as anachronistic tracks used during the two trailers, including a few from the game's menu song. The soundtrack is split into 4 CDs: CD 1 (108:22): "Fruits of the Lake" The story of the first human "Ender" starts here. It is a truly beautiful story of how the humans came to be, presented as an allegory of the nature of humanity and the fragility of the Earth. CD 2 (94:50): "Ender Canteen" The first civilized people of Earth are gathered in a kind of "Ender's Army". This song is featured during the original trailer and the "Ender's Game" shorts. CD 3 (73:20): "The End of the Reeds" During the awakening of the first people in the game, the piano of their civilization uses to tell us stories. It recounts the history of the planets in our solar system. CD 4 (92:29): "End Lands" Mili's compositions on this disc include the opening theme, which is the original version of the game theme song. The rest of the music is composed especially for this game, and covers the history of the overgrowth of Earth (before the game). Also on this disc is "Invasion", the theme of Quietus of the Knights which is used during the d41b202975

**shelves. And if you think the extras on this special edition of the movie look lovingly assembled, just wait until you see the soundtrack. If you need a good soundtrack to accompany your viewing of THX 1138, then look no further: the new original score by Tim Burton and Danny Elfman is an elegant blend of high and low, full of shimmering colors and mysterious echoes. And even if you're not a fan of the movie, there are 90 minutes of music from the score to enjoy — on your own time. We were given a copy of the soundtrack early to review, and you can find a full track-by-track review in our 'In Review' section. We also added a complete track-by-track roundup of the soundtrack on our Now Listing page. The original score to the movie was composed by Danny Elfman and performed by members of the Los Angeles Philharmonic, but only one-third of that original score survived the movie-making process — to be placed on the soundtrack. And so, this new soundtrack is dedicated to those “survivors” — as well as a few nobodies who may not even realize that the soundtrack to THX consists of any of their work. The version of the soundtrack available today is a**

**complete reissue of what was originally released in April 1989. That score was not originally released or distributed, and we are very proud to bring that music back to you. We were given the opportunity to talk to Tim Burton and Danny Elfman about the score of THX 1138, and why they chose the tracks they did. We also have an exclusive track by track synopsis of the soundtrack and the evolution of the score's approach, so check that out too. But before we get to those aspects, there's something else that we want to put on record: the mythos of THX 1138. To summarize it, it's about scientists in a world of their own. THX is a highly-intelligent, extremely violent and extremely beautiful – an outsider who breaks free of both machines and flesh, and strikes at the heart of the system. It's a movie about hedonism, and about getting high on feeling "the Void**
